

# Spartan Doors - Homestead Door

## Homestead Door

A metal shed door with rigid backing.

## Description

The Homestead Door is a lightweight and economical metal door that is ideal for access into sheds and garages.

The Homestead Door comprises of a Colorbond sheet folded into a rigid door shape and has folded ribs to the back. All four sides are folded and riveted to create a perfectly adequate door leaf that doesn't have that noisy tinny sound when slammed shut. Standard door hardware can be fitted on request.

The standard Homestead frame is 4 sided 1.1mm BMT push in Z pressed metal profile.

## Application

Sheds, perimeter fences, garages.

## Finishes

0.55mm Colorbond Steel is the standard finish. Zinalume, galvanised steel, aluminium and stainless steel are also available. Thicknesses up to 1.6mm can be supplied for additional durability.

Spartan Doors manufactures specialised doors and frames for commercial and industrial applications.

All statements, technical information, and recommendations related to Spartan's products are based on information believed to be reliable, but the accuracy or completeness is not guaranteed. Before using this product, you must evaluate it and determine if it is suitable for your intended application.
